

Web portal news and “Cloud to Cloud”

- Analyses and settings can be viewed in the main view of the web portal
- An additional pressure sensor and a digital water meter record data that can be saved in an Excel table
- The period of data recording can be defined as required
- The menus for the basic settings and parameters are now synchronised with the 4KR and can be changed live
- Raindancer use is via a ‘Cloud to Cloud’ function, see manual below
- Dealer users can create their own users (e.g. for service or sales)
- Push-up messages to all (registered) e-mail addresses, in future also via Whatsapp

Advice before the season

- Charge the battery, check for software update 1.9.0
- Download here: <https://www.beinlich-beregnung.de/service-3/faq/>
- With active web portal, updates can be done over the air/ cloud
Registration for web portal here: https://www.beinlich-beregnung.de/wp-content/uploads/2024/10/Registrierung_Everrain_Beinlich.pdf
- Test cloud login/
Reactivate customers
- If cloud is registered, check
Connection and test
- Manual for web portal
Connecting with Raindancer-App
