

Use the full potential of our web portal

The advantages:

- **Easy operation** and control
- **Save time** and **Costs**
- **More information** in the web portal
- **Easy conversion** of old machines
- **In-house developement** and Service

What tools do we use to achieve this?

- **Monitoring** and **control** in **real time** in the web portal
(Position of control and shut-off valves, flow rate, working pressure, rewinding speed, irrigation duration, etc.)
- **Multi-Sim card** for internet- & SMS-communication
- **GPS/ GSM-antenne** as standard
- **Document and analyse** irrigation data such as water quantity
- **Save** SMS-costs
- **Wireless Updates**
- Easy remote **support**

What is the procedure, registration and user fees for the web portal?

Each machine has the "4KR" electronic with a built-in multi-sim card from factory.

- Senden Sie uns Ihre Daten über unser Formular „Registrierung für die Beinlich Cloud zu“
- The fee is charged annually by direct debit. You will receive a SEPA form for this
- If the machine is used "offline", there are no costs
- For online operation and use of the web portal, €100/net per year is charged (Communication with Raindancer is possible via "Cloud to Cloud", so there are no more SMS costs)
- We set up the cloud for you
- You activate the multi-SIM card according to the instructions
- You will receive a registration email for password assignment
- You can now view and control the registered machines

Beinlich primus 2800 II

BeinlichSWS00000006

Irrigation control phase Idle

Water supply state Idle

Roll Out Length 266m / 500m

Roll pulse count 4235

Ending time 8/28/2025 4:28:00 PM

START STOP SKIP

Speed controls

0 m/h

Desired 60.0

Sensors

0.0 bar

12.1 V

Shutdown: Overpressure

Valves

Control valve position 100%

Valve shutdown state Closed

Sprinkler valve state Off

Stop detected Off

Irrigation sequence

- 8/28/2025 12:01:27 PM - Water supply state: Idle
- 8/28/2025 12:01:27 PM - Irrigation control phase: Idle
- 8/28/2025 12:01:27 PM - Irrigation control step: IrrigationControl idle
- 8/28/2025 12:00:48 PM - Water supply state: Pump shut off
- 8/28/2025 12:00:48 PM - Irrigation control step: Pump shut off
- 8/28/2025 12:00:31 PM - Irrigation control step: Pump shut off close near sprinkler valve
